Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116,  
98-170 and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

The selling point of the Tracfone system is that the minimal user does not make frequent interstate telephone calls. The simplistic service without contracts or service agreements gives us the ability to communicate quickly for emergency use while traveling or a quick ahead if we're behind schedule. The Tracfone system is an economical way for the infrequent user to have the communication ability of those that utilize their telephones for commerce but at a much more reduced usage rate.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

John O. Kult
